

PRESS RELEASE

TOTM TECHNOLOGIES AND EVVO LABS SIGN STRATEGIC MOU TO DELIVER SECURE, END-TO-END DIGITAL TRANSFORMATION AND IDENTITY SOLUTIONS ACROSS ASIA AND BEYOND

- Key areas of collaboration include joint pursuit of large-scale digital transformation and cybersecurity initiatives globally
- Co-develop advanced cybersecurity-IoT-biometric solutions
- Integration of TOTM's biometrics with EVVO's SOC, wearable systems, and AI-driven platforms with a strategic focus on accelerating national e-KYC, digital identity, and secure infrastructure deployments across regional public and private sector markets

Singapore – 11 July, 2025 – TOTM Technologies Limited (“the Group”) is excited to announce that it has entered into a strategic Memorandum of Understanding (“MoU”) with EVVO Labs Pte Ltd (“EVVO”), Singapore’s award-winning cybersecurity and Internet of Things (IoT) powerhouse.

This landmark agreement formalizes a comprehensive partnership designed to accelerate joint innovation, strengthen go-to-market synergies, and pursue global government and enterprise digital identity and cybersecurity projects, with a special focus on emerging markets such as Indonesia.

Under this MoU, TOTM will be appointed as a Privileged Global Partner for EVVO’s suite of digital and cybersecurity solutions. In turn, EVVO will integrate and promote TOTM’s flagship biometric and digital identity platforms — including ABIS, BioCheck, BioCode, and Modalities — into its growing suite of smart nation and e-government projects.

This alliance combines TOTM’s biometric authentication, verification and digital identity expertise with EVVO’s 13+ year track record delivering mission-critical cybersecurity, AI, and IoT deployments across Asia. EVVO is a trusted vendor to government agencies and global enterprises, holding ISO 27001, CREST, and CSA Trustmark certifications, with its proprietary Security Operations Centre (SOC) in Singapore serving as a regional hub.

Speaking on this collaboration, which is designed primarily for empowering the region with future-proof Digital Identity and Cybersecurity products and solutions, TOTM’s Executive Director Pierre Prunier said, “This MOU is more than a partnership — it’s a catalyst. By combining TOTM’s core digital ID and transformation technology with EVVO’s cybersecurity and infrastructure might, we are unlocking massive value in a world demanding secure, digital-first transformation.”

EVVO’s CEO Ryan Wong added, “TOTM’s digital identity stack is disruptive and certainly something we can scale with. Together, we’re shaping the future of secure eCitizen services, not just in Asia, but globally. From AI to IoT, this is truly a next-gen alliance.”

This partnership underscores TOTM’s ongoing strategy to expand regional market penetration, drive recurring revenue growth, and participate in multi-million-dollar government tenders with a strengthened competitive advantage. By aligning with EVVO, TOTM gains access to a powerful channel partner with deep relationships, proven delivery capacity, and a history of winning large-scale cybersecurity contracts, including multiple Singapore Government bulk tenders.

About TOTM Technologies Limited

TOTM Technologies Limited (“TOTM Technologies” or the “Company” and together with its subsidiaries, the “Group”) is a leading integrated solutions and services provider in identity management and biometric technology.

Leveraging on its strong execution experience and the robust technology platforms from strategic technology partners, the Group’s solutions have been applied to leading public and private projects across North America, Europe, Middle East, Asia Pacific, Latin America and Africa. TOTM Technologies also manages and maintains one of the largest biometrics National ID databases in the world with over 200 million enrolled citizens.

The Group’s platforms are based on core, multimodal technologies, such as face, finger and iris biometrics, which are listed in the top tier of the National Institute of Standards and Technology (“NIST”) benchmarks. The Group is looking to expand its coverage to medical insurance, healthcare, banking electronic payments, transport, and telecommunications-related applications in the commercial sector.

The Company was listed in August 2015 on the Catalist Board of the SGX-ST.

About EVVO Labs Pte Ltd

EVVO Labs is a Singapore-based digital solutions provider specializing in cybersecurity, AI, and Internet of Things (IoT). With over 18 years of experience, EVVO delivers mission-critical digital transformation for governments and enterprises across Asia. The company operates a proprietary Security Operations Centre (SOC) and holds key industry certifications including ISO 27001, CREST, and CSA Trustmark. Learn more at www.evolabs.com
